Who We Are Bare Roots Landscape Solutions is a landscape design/build firm with degreed professionals that specialize in horticulture, landscape design, construction and maintenance. We're passionate about sharing our expertise and offering landscape solutions that are beautiful, functional and cost efficient.

At Bare Roots, we understand the importance of integrating each discipline in the design, construction and maintenance process. We utilize every professional resource at our disposal to provide you with highly educated advice and a comprehensive master plan. And unlike many other firms, our designers have a very hands-on approach, staying involved from conception to completion.
